He loves getting his hands dirty and the feeling of a job well done. He's been doing it for 20 years and has built a reputation for his work ethic, efficiency, dependability, and strength.

But construction is a younger man's game. It's a job that pushes the limits of a person's physical capabilities, and at his age, the future didn't hold much promise for his longevity. But with the help of EksoZeroG, he can prolong his career so he can save for his daughter's education—and now, when he comes home from work, he still has the strength and stamina to lift her up in the air.
